## **DETAILED ACTION**

### ***Drawings***

1. The drawings filed on 12/12/03 are acceptable.

### ***Allowable Subject Matter***

2. Claims 2-4 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art of record fail to teach or suggest, alone or in combination, the combination of the following limitations: "a cap for a container having a cylindrical portion, a closed end of the cylindrical portion and an open end of the cylindrical portion, the radio frequency identification tag mounted on an inner surface of the cylindrical portion of the cap adjacent to the closed end such that the first connection means faces centrally inward; and a second interconnection means (ratcheting means) connected to the container for engaging the first interconnection means (protrusion or slot)when the cap is installed on the container such that removing the cap from said container will exert force on the substrate resulting in the fracture of the substrate thereby causing the radio frequency identification tag to become permanently disabled" in a manner claimed in claims 2-4. It is for these reasons in combination with all other limitations in the independent claims 2-4, and in light of the terminal disclaimer filed on 3-02-06, that claims 2, 3 and 4 are allowable over prior art of record.

***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
